## Profile

Dedicated 7th-semester Computer Engineering student with 5 months of React development experience. Strong leadership and technical skills led to successful projects exceeding expectations. Experienced user-interface designer with a passion for innovation. Ready to lead groundbreaking projects as a creative and insightful developer.

## Experience

### **FULL-STACK WEB DEVELOPER TRAINEE | THE SPECIAL CHARACTER, AHMEDABAD | JULY 2023 - PRESENT**

- Elevating from intern to trainee, I showcased exceptional skills and dedication.
- Embracing a comprehensive 6-month full-stack development program, mastering cutting-edge technologies.
- Leading end-to-end development, gaining invaluable experience in the software lifecycle.
- Crafting captivating user interfaces with React.js and Next.js, while building robust back-end solutions using Node.js and Express.js

### **TEAM LEADER | THE SPECIAL CHARACTER, AHMEDABAD | MAY-2023 – JUN 2023**

- Thrived in a dynamic 1-month "offline" internship at Special Character, mastering Next.js and demonstrating remarkable front-end expertise.
- Excelled in GitHub usage, fostering seamless team collaboration, and ensuring efficient version control throughout the "iHab" live client project.
- Led the successful front-end development of "iHab," delivering captivating and user-friendly UI design while optimizing performance through server-side rendering.

### **REACT.JS INTERN| TATVA SOFT, AHMEDABAD | MAY-2023 – JUN 2023**

- 1-month React.js front-end internship, crafting captivating user experiences through seamless API integration.
- GitHub expert facilitating efficient teamwork, driving agile collaboration and constructive code reviews.
- Led Book Store Web Application with user-friendly UI and responsive design for optimal cross-device performance.

### **FRONT-END INTERN| BWS, AHMEDABAD | JAN-2023 – MAR 2023**

- Dynamic Online Internship: Web development with HTML, CSS, and JavaScript at BWS.
- Self-disciplined & Quality Results: Completed diverse tasks, meeting deadlines.
- Master of User Experience: Crafted user-friendly interfaces with creative HTML/CSS designs.
- Interactive Innovator: Implemented JavaScript for dynamic and functional web elements.

## Skills & Abilities

### TECHNOLOGY

- C, C++
- HTML5, CSS3
- JAVASCRIPT
- TAILWIND, MEDIA QUERIES
- REACT-JS/NEXT-JS, NODE-JS

### DATABASE

- MY SQL, NO SQL
- ORACLE

## Education

**BTECH IN COMPUTER SCIENCE AND ENGINEERING | JUNE 2021 | LDRP-ITR, GAMDHINAGAR, GUJRAT**

## ACHIEVEMENTS

- Developed a comprehensive Daily expense tracker project using PHP and SQL during my college studies in 6th Sem.
- Developed intelligent video surveillance web app using Python, deep learning for object detection, social distance, car crash, and fall detection; implemented with HTML, CSS, JS, and Bootstrap for a user-friendly and scalable website during my college studies in 7th Sem.
- Achieve NPTEL Certificate for Python In data Science

## Activities and Interests

- Traveling
- Reading Books Mainly of lifestyle, phycology etc...
- Web development
- DevOps Engineer
