Ambition

I want to become a skilled Full-Stack Developer and work on projects that make a positive impact. I love working with React JS and always strive to learn new technologies. Collaboration with diverse teams excites me, and I aim to create innovative solutions that drive progress in the tech world.

Summary

➢ Experienced full-stack developer with a track record of innovative web solutions and 5 months of valuable internship experience.

➢ Proficient in front-end technologies, including React.js, Next.js, and HTML/CSS/JS, crafting captivating user interfaces.

➢ Skilled in back-end development using Node.js, Express.js, and database management with SQL and NoSQL.

➢ Strong understanding of software development lifecycle, successfully leading projects as a team leader.

➢ User-centric design approach, enhancing user experiences in enterprise-level applications and tools.

➢ Creative problem-solving, providing valuable insights and technical analysis to overcome challenges.

➢ Excellent team player and organizer, fostering collaboration and effective communication within cross-functional teams.

➢ Proactive in staying updated with the latest technology trends to ensure cutting-edge solutions.

➢ Committed to excellence, delivering high-quality work, and meeting deadlines consistently.

➢ Passionate about AI/ML and DevOps, aspiring to explore automation and data-driven innovations.

Technical Depth

➢ Languages   : C, C++, SQL

➢ Scripting Language   : JavaScript

➢ Front End Technologies : React-JS, Next-JS, HTML5, CSS3, Tailwind

➢ Back End Technologies   : Node-Js, Express

➢ Database   : MS SQL, ORACLE

➢ Develop/Manage Tools   : Visual Studio Code, GIT, Google Colab

Training/ Internship

➤ **Business Web Solution, Ahmedabad**

    Front-End Developer   January 2023 – March 2023   **3 Month**

Professional Experience

[i-HAB]

Role: Team Leader

Environment: Next Js, Tailwind CSS

Description: As the team leader, I spearheaded the development of the "iHab" project, an innovative contact card application created using Next.js and Tailwind CSS, powered by strong JavaScript skills and a focus on building reusable components. iHab serves as a comprehensive solution for storing and organizing contacts based on their work groups, facilitating efficient contact management. The application also includes insightful contact analysis and feedback-sharing features, enabling seamless communication and collaboration among users. With its user-friendly interface and robust functionalities, iHab redefines the way contacts are managed and fosters enhanced professional interactions.

[Book Store E-commerce Web App.]

Role: React Js Developer

Environment:- React-Js, Tailwind CSS, API's

Description: Discover our captivating Book Store E-commerce app – an innovative platform designed with excellence in React JS and Tailwind CSS. With strong JavaScript skills and reusable components, it offers a delightful shopping experience. Explore an extensive book collection, personalized recommendations, and enjoy a seamless checkout. Embrace modern design, responsive interfaces, and optimal performance. Our project showcases skilled front-end developers' dedication to crafting exceptional web solutions that inspire and engage.

Education

Education	School / Collage	Percentage	Passing Year
SSC	Vidyadhish Vidyasankul	85.95	March - 2018
HSC	Mahatma Gandhi Vidhya Sankul	56.50	Mar - 2020
B.E. C.E.	LDRP-ITR Gandhinagar	6.53 CPI	2021 - Present
